

Invited symposium: Early childhood development support in Serbia

Moderator: prof. dr Mihić Ivana

Discussant: prof. dr Pištoljević Nirvana

Early childhood development support is based on quality of integrated services for children and their families. These services aim to monitor children's development, but also the needs of families and to respond with preventive action, outreach and information delivery on ECD, and quality early intervention and support to the caretakers in providing nurturing care for each child. Current legislative in Serbia strongly advocates the significance of development of such a system of services and continuity of care for the child and the family from the conception. This makes a basis for scientific knowledge and evidence based practice to be introduced to current services, monitoring of quality of services, but also through new ECD and early learning support programs.

1. State and context of ECD support in Serbia-introductory note

Mihić Ivana, Jelena Zajeganović Jakovljević

2. Early childhood development screening in Serbia

Marina Videnović, Milana Rajić, Ivana Stepanović Ilić, Ivana Mihić, Dragana Lozanović, Ljiljana Sokal Jovanović

3. How much is environment supportive for early childhood development in Serbia?

Milana Rajić, Marina Videnović, Ivana Stepanović Ilić, Ksenija Krstić, Marica Milidrag, Radovan Bogdanović

4. "Teddy bear home visit" - implementation of early childhood development support program in patronage nurse home visitation

Mihić Ivana, Nedeljković Kristina, Marić Miljana, Branković Jelena

5. Needs for ECD support programs in alternative child care: perspective of foster parents and foster family councilors

Marić Miljana

Pozvani simpozijum: Podrška ranom razvoju dece u Srbiji

Moderator: prof. dr Mihić Ivana

Diskusant: prof. dr Pištoljević Nirvana

Podrška ranom razvoju podrazumeva sistem integrisanih usluga namenjenih deci i porodicama. Ovi oblici rada imaju za cilj da prate kako razvoj dece, tako i potrebe porodica i, osim preventivnog delovanja i doseganja porodica informacijama o ranom razvoju, stvore uslove za kvalitetnu ranu intervenciju kada je potrebno, kao i podršku starateljima u ostvarivanju kvalitetne nege i podsticajnog okruženja za dete. Aktuelni regulatorni kontekst u Srbiji, snažno zagovara značaj razvoja ovakvog sistema usluga i kontinuitet brige o

razvoju dece od začeca. Ovo omogućuje implementaciju naučnih saznanja, kao i razvoj na dokazima temeljene prakse u podršci razvoju dece kroz postojeće oblike rada, ali i kroz monitoring kvaliteta usluga, i uvođenje novih programa podrške razvoju i učenju u ranom detinjstvu.

1. Aktuelno stanje i kontekst podrške ranom razvoju dece u Srbiji- uvodno izlaganje
Mihić Ivana, Jelena Zajeganović Jakovljević

2.Skrining razvoja dece ranog uzrasta u Srbiji
Marina Videnović, Milana Rajić, Ivana Stepanović Ilić, Ivana Mihić, Dragana Lozanović, Ljiljana Sokal Jovanović

3. Koliko je sredina u kojoj odrastaju deca ranog uzrasta u Srbiji podsticajna?
Milana Rajić, Marina Videnović, Ivana Stepanović Ilić, Ksenija Krstić, Marica Milidrag, Radovan Bogdanović

4.“Poseta Mede čitača”- implementacija programa podrške ranom razvoju u okviru poseta patronažnih sestara
Mihić Ivana, Nedeljković Kristina, Marić Miljana , Branković Jelena

5.Potrebe za programima podrške ranom razvoju u hraniteljskim porodicama: perspektiva hranitelja i savetnika za hraniteljstvo
Marić Miljana
